Document # 2020-5885

Straatman BV warranty conditions:

- The 24 months warranty will start after successful commissioning by a Straatman (approved) engineer.
- Maximum warranty will be maximum 30 months after delivery
- In order to continue the warranty, an inspection is required after 12 months of commissioning, carried out by a Straatman (approved) engineer for a full check. A report and new warranty certificate will be issued afterwards.
- According to our FME conditions, defects falling under the guarantee will be removed by the contractor by repair or replacement of the defective part, whether or not in the premises of the contractor or by mailing a part for replacement, this always at the contractor's discretion. All costs that go beyond the sole obligation as described in the preceding sentence, such as, but not restricted to, costs of transportation, costs of travelling and accommodation and costs of disassembly and assembly are at the expense of the purchaser. A new guarantee period of minimum 6 months shall apply for repaired parts and parts in replacement.
- Wearing parts are excluded from warranty
- Damage caused due to incorrect installation or operations are excluded from warranty.

With kind Regards,

Gertjan Strietman
Straatman BV
